Destination: The Australian Motorlife Museum,. Kembla Grange.

Today we are going to The Australian Motorlife Museum, Integral Energy Recreation Park, Darkes Rd, Kembla Grange.

Contact: The Honorary Curator, Wendy Muddell on 0408 211844 or the Museum on 4261 4100.

The Museum was established in 1992 by a group of motoring enthusiasts. It was renamed in 2007 with the move to this extensive purpose built facility. It includes exhibitions, restorations, meeting and research halls in a large semi rural recreation area.

The Museum has Signs, Bicycles, Tools, Cars, Motor Cycles, Early Caravans, Gramophones and Motoring Related Accessories. It was 2008 winner of the City of Wollongong Australia Day Community Award, is a registered charity and draws on the expertise and enthusiasm of a large group of dedicated volunteers.

Entry fees range from \$11 (normal), \$8.50 (concession), \$7.50 (N.R.M.A. members) to \$5 (for children 6 to 16). Concessions apply to groups dependent on numbers. The museum can provide coffee, drinks etc but we suggest you stop in Albion Park on the way if you need to purchase picnic essentials. The Museum is surrounded by extensive open areas which feature amenities, picnic spots, barbeques and a childrens playground.

Leave the Pony Club travelling East along Osborne Rd.

Turn LEFT into Eridge Park Rd.

Turn RIGHT at the roundabout into Kangaloon Rd.

Turn LEFT at Glenquarry into Tourist Rd.

Follow Tourist Rd all the way until you reach the Illawarra Highway near the top of the Macquarie Pass

Turn LEFT onto the Illawarra Highway and proceed with care down the Macquarie Pass, past the dairy farms in the valley and into Albion Park. Turn LEFT following the Illawarra Highway at the major intersection traffic lights (small park on your LEFT and a Hotel on your RIGHT)..

Along this section of road the Albion Park Airport and H.A.R.S. restoration facility is visible over to your RIGHT.

Turn LEFT at the large roundabout onto the Princes Highway heading north. At Yallah near the Haywards Bay overbridge, the Princes Highway becomes the F6 Freeway.

Take particular care along the Freeway as mobile speed cameras are being used in this area.

Follow the F6 Freeway until Kembla Grange where “horsey” areas are visible on the LEFT.

Leave the F6 at the Northcliffe Rd exit and turn LEFT into Northcliffe Rd.

Turn LEFT onto the Old Princes Highway at the T intersection traffic lights (blue Motor Museum signs are visible) and quickly move into the centre lane.

Turn RIGHT into West Dapto Rd with Kembla Grange railway station on your RIGHT. (Should you miss West Dapto Rd you can continue along quite some distance to the next roundabout where you can turn RIGHT into Darkes Rd). Follow West Dapto Rd across the railway line (poor visibility) then further along cross a rarely used industrial railway line.

Turn LEFT into Darkes Rd. following the blue Motor Museum signs.

The Motor Museum is a dark grey building on your LEFT. There is ample parking.
